DESCRIPTION

Zen design villa - Panoramic rooftop, botanical garden, bioclimatic greenhouse - Cassia area, Rome

For sale in Rome, in the exclusive and quiet Cassia area, a unique Zen-style detached design villa. Distributed on a single level, the property offers a large panoramic rooftop with bioclimatic greenhouse, Zen-style botanical garden and a mini infinity pool with chromotherapy, perfect for moments of relaxation and contemplation. The entrance leads to a charming outdoor living area, nestled among bamboo plants and enriched by a pool with Japanese koi, immediately conveying a sense of harmony and well-being. A glass wall elegantly separates the interiors, maintaining a constant visual connection with the outdoor greenery. The interiors, designed with care and attention to detail, express a refined architectural design: natural materials, essential lines and custom-made furniture combine to create an intimate and welcoming atmosphere. The bright

and modern living area is complemented by a contemporary-designed open kitchen, perfectly integrated into the space. The villa includes three bedrooms and two high-end bathrooms, equipped with emotional showers and fine finishes. At the center of the house, an indoor garden with rare oriental plants and zenithal light reinforces the link between indoor and outdoor spaces. The rooftop houses a scenic bioclimatic greenhouse, ideal as a meditative environment, study or relaxation area, nestled in the Zen-style botanical garden. Here is also located the mini infinity pool with emotional lighting, designed for a complete wellness experience. A unique housing proposal for those who want a prestigious residence where nature, architecture and spirituality blend harmoniously, offering an authentic oasis of peace in the heart of Rome.
