DESCRIPTION

Renovated Penthouse and Super Penthouse with Terraces and Condomial Pool

In Rome, in a green and reserved context, within an elegant complex with swimming pool, a residence was born that combines modern comfort and flexibility of spaces: a penthouse and super-attic connected by an external staircase, autonomous and perfectly integrated, ideal for living together or separately with absolute naturalness. The first level welcomes with a bright and well-distributed living room, an eat-in kitchen and a sleeping area composed of a master bedroom with en suite bathroom, a second double bedroom, a third single room, an additional bathroom and a practical storage-laundry room. Three small terraces surround

the house, creating a continuous dialogue with light and greenery. The upper level opens onto a large living room with separate kitchenette, two bedrooms, two bathrooms and a large semi-perimeter terrace, perfect for convivial moments or to enjoy the quiet and open views. Recently renovated with quality materials, the property has autonomous systems and includes a loft car garage, made with care. The triple exposure and southern orientation ensure bright environments all day long, with protected and verdant overlooks. All this in a strategic location, convenient to services, schools and main connections.
